Dr. T. V. Prasad has over 15 ½ years of experience in industry and academics, has deep interest in planning and executing major IT projects, as well as in research in new areas of CS/IT and bioinformatics.

He has received his graduate and master's degree in Computer Science from Nagarjuna University, Andhra Pradesh, India. He was teaching for over one and half years at post-graduate level before joining the Bureau of Indian Standards, New Delhi where he worked for 11 years as Scientist/Deputy Director. He also earned doctoral degree from Jamia Millia Islamia University, New Delhi in the area of computer sciences/bioinformatics. After having worked as Head of the Department of Computer Science & Engineering, he is currently working with Lingaya's University, Faridabad, as Dean of R&D and Industrial Consultancy.

He is a trained auditor for implementation of Information Security Management System (ISMS) as per the ISO/IEC 27001:2005 standard. He also possesses quality system (ISO 9000) certification experience as technical expert. He has lectured at various international and national forums on subjects related to computing and is currently supervising 10 research scholars in various areas of computing.

Prof. Prasad is a member of Institute of Electrical & Electronics Engineers (IEEE), International Association of Engineers (IAENG), International Research Alliance of Science & Technology (IRAST), Project Management Institute (PMI), USA, Computer Society of India (CSI), and life member of Indian Society of Remote Sensing (ISRS) and Asia Pacific Bioinformatics Network (APBioNet), Singapore.

His research interests include bioinformatics, consciousness studies, artificial intelligence (natural language processing, swarm intelligence, robotics, knowledge representation and retrieval). He has been Principal Investigator for some funded projects of the Govt. He has over 65 papers in different journals and conferences, and has authored four books and two chapters.
